### CHAPTER 2

- Paul offers the recipe for unity by calling believers to have the same mindset as Christ, whose path to power and authority was actually through humility as a servant, obedient to death.
- Paul calls believers to "figure out" what having the mindset of Christ practically looks like... calling them as temples of the living God to live holy and blameless lives, shining like stars in the same way God called the people of Israel to stand out among other nations.
- Paul informs the Philippians that their brother Epaphroditus arrived and was healed from sickness. He hopes to send his disciple Timothy to the Philippians once he knows his sentence.
